in 2006 the auditor investigated companies selling direct to consumer dtc genetic tests and

testified that these companies made medically unproven disease predictions experts are concerned that the test results mislead consumers the auditor was asked to investigate dtc genetic tests currently on the market and the advertising methods used to sell these tests kutz purchased 10 tests each from four companies for 299 to 999 per test he then selected five donors and sent two dna samples from each donor to each co one using factual info about the donor and one using fictitious info such as incorrect age and race or ethnicity the fictitious consumers received test results that are misleading and of little or no practical use illus
